

Downey Unified School District

CLASSIFIED PERSONNEL

ABSENCES AND LEAVES

BP 5250

It shall be the policy of the Board of Education to define a leave of absence as an authorized absence from duty, with or without pay or other benefits, for a specified period of time.

A leave of absence may be revoked by action of the Board when it shall appear to the Board's satisfaction that the employee is engaged in activities for which the initial leave would not have been granted.

The Board of Education shall not be held liable for the payment of any compensation or damages arising from the death or injury of any employee while on leave of absence.

Leaves of absence may be granted at the discretion of the Board when recommended by the Superintendent. Such leaves shall be granted by the Board when mandatory by law.
