The form contains several input fields: 'Your Name' (labeled 1), 'Your Email' (labeled 2), 'Password' (labeled 3), and 'Re-enter Password' (labeled 4). Below these is a 'Student Pairing Code' field with a link 'What is a pairing code?'. At the bottom, there is a checkbox for 'You agree to the terms of use and acknowledge the privacy policy.'.

9. Type in the Student Pairing Code that you copied from step 4.
10. Pairing codes are only good for 1 user. If another parent wants to add the same student, then the student will need to generate a new pairing code. If you want to add a different student, then you will have to get a new Pairing Code from that student's account
