

# MEASURING UP

*Facilities Planning & Development Monthly Newsletter*

## DIRECTOR'S MESSAGE

The new year has begun and we are running at full speed in the Facilities department! We are busy with the construction of the new Stauffer gym and the final planning of Stauffer's new two-story classroom building, which is estimated to start construction later this year. We are also planning to knock out many small projects during our upcoming spring and summer breaks. The ability to have back to back jobs is directly correlated by the great support of our students and school sites. As always, thank you Downey community for all of your support!

Vince Madsen, Senior Director  
Facilities Planning & Development  
Downey Unified School District

## Doty Middle School

Doty Middle School has their new bus drop off area.

Sitework continued in the month of January with the hydroseeding of the north field and the irrigation pump installation. Doty MS is getting their final graphics on their new buildings and the project is wrapping up.

## Stauffer Middle School

The concrete contractor is on site pouring stage wall, restroom curbs, and electrical room pads in the new gym. The landscape contractor is also on site working on the existing underground control wiring while the plumbing contractor reviews the underground piping.

### IN THIS ISSUE

## **DOTY MIDDLE SCHOOL**

## **STAUFFER MIDDLE SCHOOL**

### COMING SOON

In the final stages of the middle school modernization projects, Griffiths and Sussman Middle Schools will be receiving paving upgrades throughout their sites including adding new asphalt and concrete areas. Sussman and Doty Middle Schools will be getting new Culinary Arts classrooms and synthetic turf areas. The girl's locker room restroom will be modernized at Sussman as well. All four middle schools will also be getting 3 permanent lunch structures each.
