

# MASKING for the BEST PROTECTION

## Surgical Masks and N95, KN95 & KF94 Masks

KN95 Mask

### SURGICAL MASKS

**Keywords:** ASTM Level 1-3, medical procedure and use, dental or disposable.

#### What to Look for:

- Multiple layers of non-woven material **and** a nose wire.
- Complete coverage of nose & mouth **and** no gaps on sides of cheeks/chin.
- Surgical mask will form beads on its surface **and** not leak into the mask when exposed to water drops.

**Pro-Tip:** Double-Mask - Wear a surgical UNDER a cloth mask to improve fit and filtration.

### N95, KN95 & KF94 MASKS

**Keywords:** Respirator, FFR or "Filtering Facepiece Respirator", KN or "Korean Filter" & NIOSH-certified (only for N95).

#### What to Look for:

- The right size, style & model to form a tight seal on face. N95s require fitting.
- KN95/KF94 are reliable masks that meet international regulatory requirements.
- CDC's factors to consider when purchasing international: See [bit.ly/cdcintl](https://bit.ly/cdcintl).
- More on N95 from CDC: See [bit.ly/n95labels](https://bit.ly/n95labels) and [bit.ly/counterfeitn95](https://bit.ly/counterfeitn95).

**Pro-Tip:** DO NOT double-mask with a respirator.
