Facilities Planning & Development Monthly Newsletter

DIRECTOR'S MESSAGE

We are another month closer to the summer break when our Facilities department will get started on some of the additional finishing touches at the middle schools. Now that spring is here, we have a bounce in our step as we gear up for more improvements to our school sites. Like I always end my Director's messages, I must shout out a big thank you to our awesome community here in the city of Downey for their great support of our schools in the passage of our Measure O bonds back in 2014.

Vince Madsen, Senior Director
Facilities Planning & Development
Downey Unified School District

Stauffer Middle School

The masonry contractor is continuing to stack the block walls for the gym while the concrete contractor is working in the future stage area of the gym. The electric contractor is working on adding exterior raceways to the masonry walls.
