

MEASURING UP

Facilities Planning & Development Monthly Newsletter

DIRECTOR'S MESSAGE

Where has the time gone? As we move into the last month of the school year, it is starting to look a little more normal on our school campuses. The Facilities department took advantage of last spring break and accomplished a great deal on our middle school sites. Our next flurry of construction activities will get rolling in June as we start our summer break. We have also been gathering information on how we might be able to update our current Masterplan to better utilize our elementary school sites. It truly is a rewarding feeling to wrap projects up and see how our students and staff use their new upgraded facilities. Thank you to our Community for the support of DUSD.

Vince Madsen, Senior Director
Facilities Planning & Development
Downey Unified School District

Stauffer Middle School

The masonry contractors are continuing to stack the black block walls while the concrete contractors are forming columns and lintel. School staff members were welcomed onto the construction site last month to sign the steel trusses.
