

# Technology Systems Equipment Update

Modernizing Our Technology Infrastructure

# Neglects

- Wireless Access Points
- Wired Network
- Cabling Infrastructure
- Phones
- Paging
- Cameras

A close-up photograph of water being poured from a height into a clear glass. The water is captured mid-pour, creating a dynamic splash with many small droplets and bubbles. The background is dark, making the clear water stand out.

# Wireless Access Points

- 8<sup>th</sup> Year of Service
- First Generation 5Ghz
- Many at or over Capacity
- Struggle to support video
- Updates Overwhelm Capacity

# Wired Network (Switches)

- 8-20 Years of Service
- End of Life
- Lacks Management
- Will NOT Support New Wireless Access Points

TheNeed 4

# Cabling Infrastructure

- Older Cable Replacement to Support Higher Speeds
- Cabinets Need to be Replaced
- Need Additional Network Ports

# Phones

- 23 Years Old
- New Phones Not Available
- System at Capacity

TheNeed 6

# Paging

- Critical to Site Safety
- Very Old Systems
- Limited Capabilities
- Low Sound Quality

# Cameras

- Limited Coverage
- Outdated Management Platform
- System at Capacity

TheNeed 8

Time Based

# Overarching Goals

- One Management Platform
- Operational Efficiency

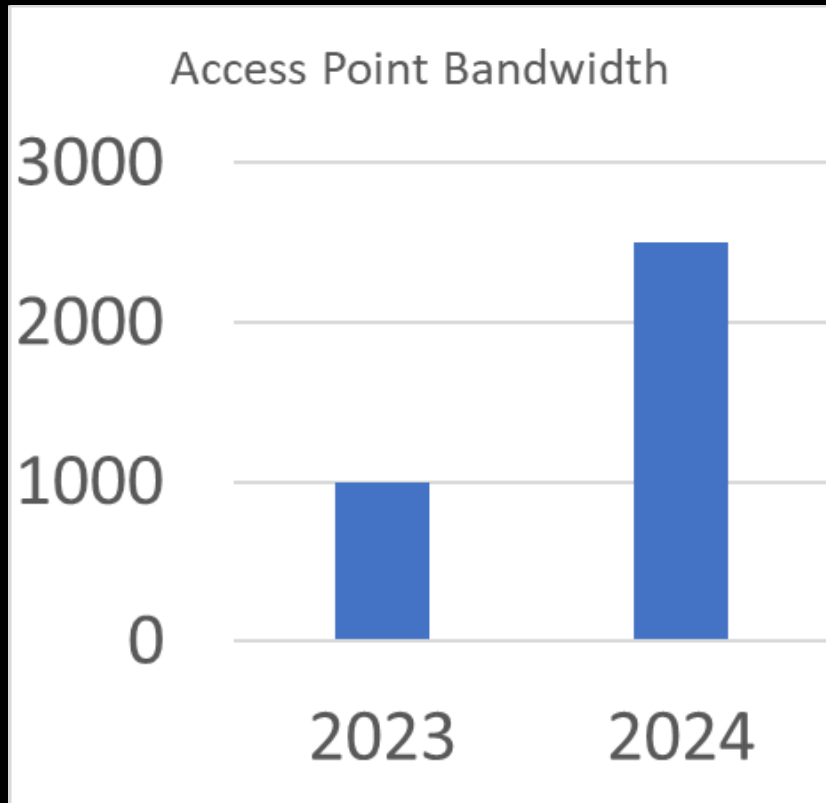

Goals 10

# Wireless Access Points

- One Vendor for Both Wireless and Wired Networks
- Highest Utilization at 50%

# Wired Network

- One Vendor for Both Wired and Wireless
- Double Bandwidth to Wireless Access Points

# Cabling Infrastructure

- Support New Switches
- Support 2.5 Gbps to Wireless Access Points
- Provided Needed Ports

# Phones

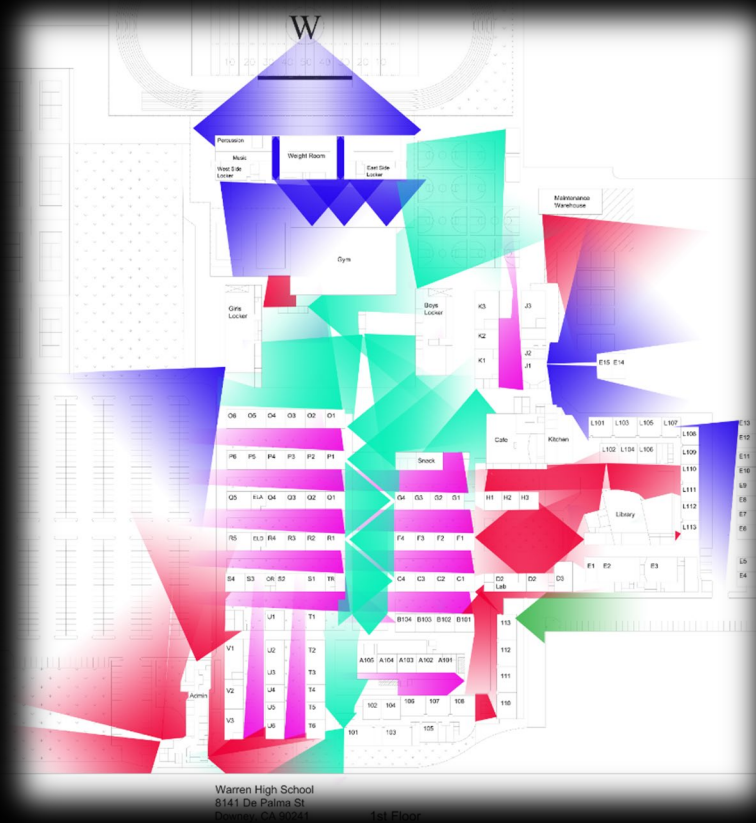

- 99.99% Uptime
- Reduce Support Time 50%
- Meet Regulatory Requirements

# Paging

- Multi-Media Capabilities
- Flexibility
- Improved Sound

# Cameras

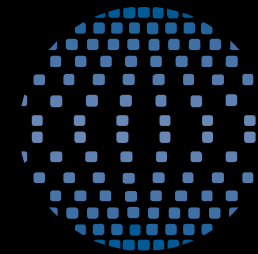

- Meet Requests of Site Administrators
- All Paths of Travel
- Access to Cameras From any Device
- Ability to Provide Access to Police and Fire

# The Process

# The Solution

**AMS.NET**  
Technology Solution Provider

 singlewire

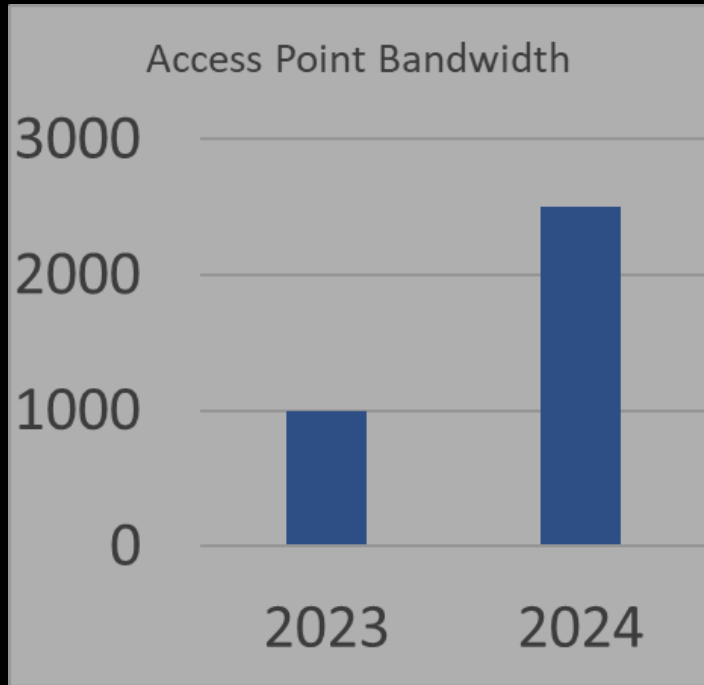

**InformaCast®**

# Wireless Access Points

- Cisco 9166I Access Points
- WiFi 6E Doubles Capacity in Classrooms
- Unified Cisco Meraki Dashboard

# Wired Network

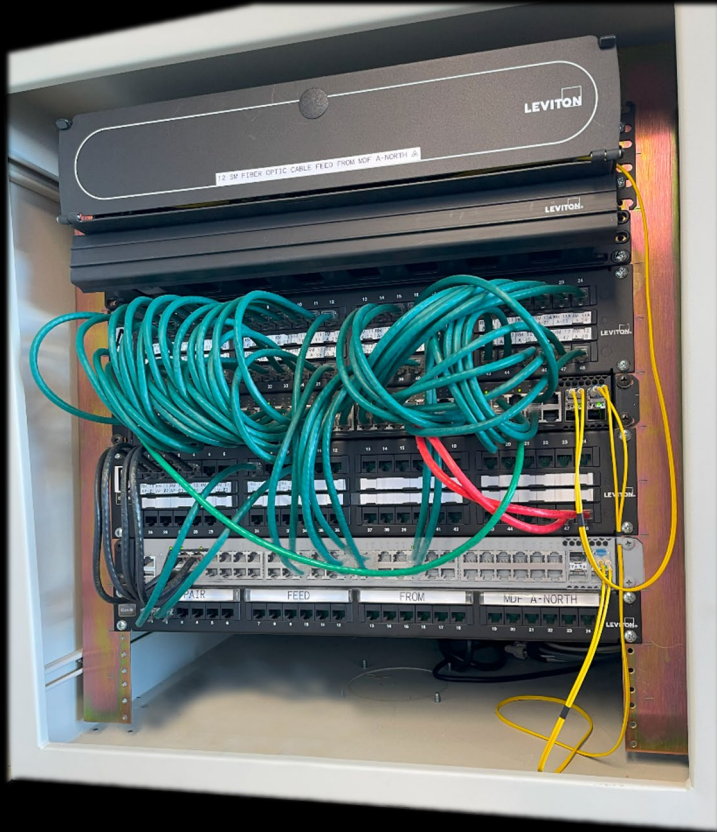

- Meraki MS355 Switches
- Unified Cisco Meraki Dashboard
- Multi-Gig Support for 2.5 Gbps – 2.5x performance

The Solution 20

# Cabling Infrastructure

- 30-Inch-Deep Cabinets
- Category 6 Network Cable
- Additional Ports as Needed

# Phones

- Cisco WebEx Suite
- Industry Leading Uptime
- Unified Management Platform Simplifies Setup and Support
- Meets Regulatory Easily

# Paging

- Cisco Partner Singlewire Informacast with AND Speakers
- Informacast Integrates with Management Platform
- Full Color Screens with Speakers
- Improved Sound
- Integration with Classroom Audio

# Cameras

- Cisco Meraki Cameras
- Unified Cisco Meraki Dashboard
- Coverage of All Paths of Travel meets Administrators Requests
- Access to Cameras From any Device – Computer / Phone / tablet and Police and Fire

# Project Timeline Estimate

- 18 – 24 Months
  - Phones
  - Cameras
  - Cabling Infrastructure
  - Wired and Wireless Network
  - Paging

# Project Costs

- \$28,064,096.95
- Cisco Zero Cost Financing
  - 4 Years

The background of the slide features a light gray circuit board pattern with black lines and circular components. A solid black horizontal band runs across the middle of the image, serving as a backdrop for the text.
