

AVID

NEWSLETTER- FALL '25

UPDATES AT A GLANCE

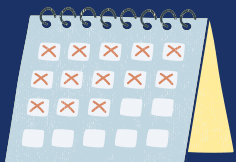

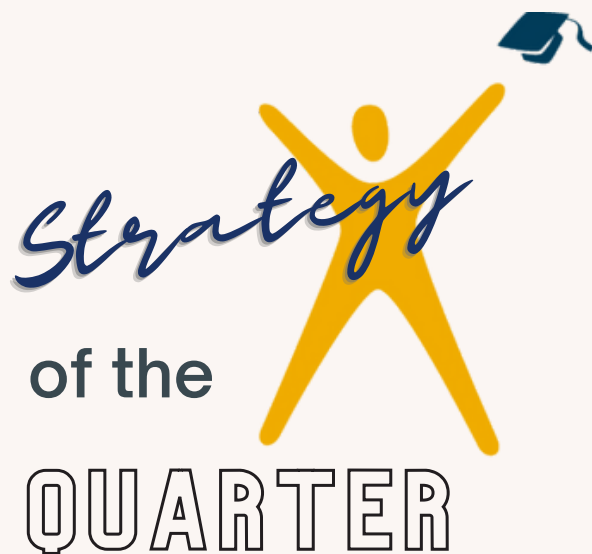

- This summer, eight Warren math teachers attended the AVID Summer Institute, where they focused on WICOR strategies and creating interactive classrooms that build strong mathematical communication and college readiness.
- This fall, we welcomed over 150 AVID freshmen to Warren, CA. This brings our AVID enrollment to 554 students, representing 15.4% of the student body.
- We are also excited to introduce two new AVID teachers, Mr. Padilla and Mrs. Sandoval, to the Warren AVID team.
- Our annual AVID Tailgate with our middle schools was the best attended yet, thanks to the hard work of AVID 10 teachers, Mr. Danny Mendez, Mr. Ray Trejo, and everyone who helped make this event a success for our students.

Fall 2025 AVID Tailgate

Reciprocal Teaching

Students take on rotating roles such as summarizer, questioner, clarifier, and predictor while reading a text together. By guiding and leading each other through the material, students strengthen comprehension, questioning, and metacognitive skills while the teacher acts as a facilitator rather than the sole source of knowledge. This strategy helps students internalize effective reading strategies they can apply independently across all content areas.
